

Class IV

Excursion to Science City, Kolkata

On Thursday, 18th December 2025, the students of Class IV went on a fun-filled picnic to Science City, Kolkata. The trip was organised to provide the children with an enjoyable learning experience outside the classroom, and everyone was excited to explore the attractions.

A major highlight was the Time Machine – a 3D ride, which took the students on a journey to the Great Wall of China through an engaging visual experience. The children also enjoyed the Dark Ride – Evolution of Life, where they learned about the journey of life on Earth in an interactive and memorable way.

The students were delighted to visit the Live Butterfly Enclave, where they observed colourful butterflies and learned about their life cycle. They also enjoyed spending time on the playground with their friends. Overall, the picnic was both educational and enjoyable, leaving the children with happy memories of the day.
